

KUBE- Neutral Countertop displays

Showcases have been designed and tested for the exhibition of pastry products from oven, as brioches, croissants, muffins, but also suitable to exhibit various foods, or any other product to be showed in an elegant and strengthness shop window.

Particular attention was paid to design, to enhance both products exhibited that the surrounding environment.

The structure is in stainless steel sheet, scotch brite polished finish.

The uprights are moulded in a rounded square 35x35 mm section and, together with the upper frame, give to the structure an exceptional sturdiness.

The removables intermediate shelves are in stainless steel;

Useful space between shelves is 15 cm.

UPON REQUEST **glass shelves 5 mm thick** can be supplied.

Sides and front panel (customer side) are in glass 4 mm thick.

Standard model are with polycarbonate 4 mm thick hinged doors on the service side;

upon request doors can be mounted on the two sides (models signed **with -P**), to allow inside access both by the service side than the customer side (self-service usage).

The hinges supporting the doors, applied with pressure screw, allow the complete opening of the doors (nearly 170°).

The top is in **5 mm thick (6 mm in 87 lenght models)** glass with rounded corner, locked to the frame with 4 large-head screws.

Adjustable feet for perfect levelling.
